We Can Do It Together

Lyrics (1)

Hey, hey!
Come on, everybody!
Are you ready?
Let's work together!

I can build a tower,
You can build one too,
I have got an idea,
Maybe you have two!

If I help you,
And you help me,
We can make a bigger dream,
Just wait and see!

You bring your idea,
I'll bring mine,
Put them all together,
And we'll make them shine!

We can do it together,
Together, together!
You and me, side by side,
We'll make it better!

We can help each other,
Share and care together,
When we work as a team,
We can do anything!

Hey!
Together!
Hey!
We can do anything!

Sometimes I make mistakes,
Sometimes you do too,
That's okay, my friend,
I'll help you through!

If something doesn't work,
We don't have to stop,
We can try another way,
And never give up!

You bring your idea,
I'll bring mine,
Put them all together,
And we'll make them shine!

We Can Do It Together

Lyrics (2)

We can do it together,
Together, together!
You and me, side by side,
We'll make it better!

We can help each other,
Share and care together,
When we work as a team,
We can do anything!

One little hand,
Two little hands,
Many little hands,
Can build great plans!

You help me,
I help you,
There's so much more
That we can do!

Everybody say:

I can help!
You can help!
We can help each other!

I can share!
You can share!
We can work together!

We can do it together,
Together, together!
You and me, side by side,
We'll make it better!

We can help each other,
Share and care together,
When we work as a team,
We can do anything!

Together!
Together!
We are stronger together!

Together!
Together!
We can do anything!

Hey, hey!
You and me!
Working together!
That's the key!
